Chris Hogg
GCF Programme Manager

5G

- Ecosystem / Value Chain
- Business environment / Regulation

Shared vision, collaboration and partnering is key!

- **To identify and accelerate the benefits of 5G we need to work together.**
- **Standardization/harmonization of regulation, technology and processes are critical enablers.**
- ***GCF Certification is a key tool to***
 - Identify shared technology priorities.
 - Ensure 5G products and services are interoperable worldwide.
 - Accelerate time to market and reduce costs.

Let's work together to ensure MENA's requirements are included in GCF Certification.

GCF Certification: Enabling 5G
